

# Titus

Introducing HSR Seeds 82 CRM silage maize. Great for quick maize silage in northern regions and a great full season maize silage in southern regions of New Zealand, or for growers that plant or harvest out of the key operating window or need quality early season feed. It is designed principally for the silage producer who wants a quick turnaround with an excellent yielding/quality maize silage for its maturity or for regions with limited growing days.

**Titus** is suitable across all maize growing areas. Great results in independent FAR Maize Trials across New Zealand.

Growers seeking the quickest, good yielding, excellent standability and disease tolerant package, should be growing **Titus**. Producing high quality 'starchy' silage yields.

## PLANTING POPULATIONS

**85,000 TO 110,000** seeds/ha  
(GRAIN 75-110K)

### Plant Type:

**82 CRM Quick silage or Grain**

### Yield Potential:

**Excellent yields with a solid disease package.**

### Plant Height:

**Medium height plant with a great root structure**

### Grain Type:

**Dent x Flint highly digestible feed grain. High starch content in grain and silage.**

### General Comments:

**Quick yields that fill a specific purpose.**
