

Brutus

New *Brutus* from HSR Seeds is a 105 CRM soft feed/silage maize. *Brutus* is a hybrid that has extremely high water use efficiency and exceptional yield for its maturity. It has an early-season growth habit that allows versatility and flexibility in sowing and harvest.

It is designed for the maize grower who wants a crop that stands well, has a 'Brut' of cob, with an excellent silage yield/quality or high yielding stockfeed maize grain.

Best grown from all over various environments throughout New Zealand.

Growers in warmer regions looking for a reliable, high yielding, excellent disease tolerant and standability package in an early-maturing maize hybrid, should be growing *Brutus*. Producing high quality "starchy" feed grain and silage yields. Farmers that want a stable hybrid that has performed exceptionally well across quicker environments in trialling should look at *Brutus*.

Great staygreen in this hybrid which is noticeable among hybrids in this CRM range.

PLANTING POPULATIONS

85,000 TO 100,000 seeds/ha
(GRAIN 75-100K)

Plant Type:

105 CRM Silage or Grain

Yield Potential:

Excellent yields with unbelievable disease package.

Plant Height:

Tall plant with large root structure for high WUE.

Grain Type:

Dent x Dent highly digestible feed grain. High Starch content in grain and silage.

General Comments:

Solid yields under various conditions.
