

50% Seed Replant Terms & Conditions

Nutrinza will provide 50% replacement seed at no cost for the affected HSR hybrid maize seed for the grower to replant if:

1. The grower has planted HSR hybrid maize seed during Spring 2025.
2. Within two months of the date of planting, the grower notifies Nutrinza that their HSR hybrid maize crop needs replanting.
3. The affected area is assessed as requiring replanting by a Nutrinza representative.
4. The grower replants HSR hybrid maize seed for harvesting in 2025 and the decision to replant is approved by a Nutrinza representative.
5. 50% replant cover includes original seed treatment. Any further seed treatment is to be charged at full price.
6. If Nutrinza is unable to supply replacement seed due to stock shortages, equivalent seed will be supplied for the following season.

This replant offer extends to 100% replant cover if the seed order is received by Nutrinza before 1st August 2025. All other conditions remain the same.
